Attention, Farmers!

If you have more oats or wheat than you need we will exchange anything we have for it and allow you a good price.

We have several nice driving horses that we want to sell or trade for mules, also have nicest line of buggies and carriages in the upper part of the State, which we want to sell or exchange for good sound mules.

We will guarantee more for cotton to be delivered this fall as part payment on buggies and carriages.

We Are The Farmers' Friend Try Us and Be Convinced

Who paid the most for cotton last fall? If you don't know, ask your neighbor! We bought more cotton at ten cents a pound than any other concern in Anderson county. We did this simply to help our customers.

Let us paint and repair your buggy. We have a first-class rubber tire outfit, use best material and guarantee our price and quality of work. This department is in charge of an expert. Call around and let's do business together. We will appreciate you trade.

Yours very truly,

The Fretwell Co.

J. BELTON WATSON DIED ON SATURDAY

DEATH CAME AFTER LONG ILLNESS—VERY PROMINENT CITIZEN

WAS LEGISLATOR

For Several Years Served Anderson County in the State House of Representatives.

Anderson county lost one of her best and most highly esteemed citizens in the death of Mr. John Belton Watson, which occurred at his home at Cross Roads, four miles above the city, yesterday morning at 5:30 o'clock. Funeral services will be held this afternoon at Salem church at 3:30 o'clock. Rev. O. L. Martin officiating. Interment will be made in the family burial plot in the church yard.

Mr. Watson had been in ill health for the past two years and about three months ago he went to Columbia to undergo an operation. It was successful and had nothing to do with his death. Several weeks ago he became ill and his condition grew worse, death resulting from heart and liver trouble.

Mr. Watson was born on March 1st, 1853, and was the oldest child of David M. Watson and Martha Burris Watson, the daughter of the Rev. David Burriss. His father lived on a farm about our miles Northwest of the city and Mr. Watson was reared on the farm. He received his education in the public schools, being under the instruction of Prof. W. J. Ligon in Anderson in 1871-72. Mr. Watson was then 19 years old and his father died during that year. Being the eldest child, he had to help superintend the farm and his education was cut short.

Being a farmer and a young man of high ideals and strong convictions, Mr. Watson took much interest in the farmer's movement and it is known that he became active in their affairs in 1876. He attended all the important meetings and was then recognized as a leader of men. He soon became one of the staunchest members of the movement and after having served on several important committees in 1884 he was elected head of the delegation to the legislature. In 1886 he was defeated by a small majority but was elected again in 1888, 1891 and 1894.

In 1894 Mr. Watson withdrew from politics for a time and devoted his attention to his farm. He was one of the most progressive farmers of that time and soon accumulated much land, so that at the time of his death he was one of the foremost and most prominent farmers in this section of the state.

Mr. Watson later took to politics again and in 1908 he was elected to the legislature and also in 1910 he was chosen to represent Anderson county.

While Mr. Watson was a member of the state house, representatives of sound judgment in discussing and acting upon the affairs of the people won for him distinction and his name has found on many of the appointment committees appointed in the house during his terms of office. While chairman of the committee on Privileges and Elections especially did Mr. Watson show sound judgment and straight business principles. He was a legislator who always had at heart the affairs of the farmer and he pressed many pieces of legislation which have been of much service and protection to them.

Mr. Watson was twice married, his first wife being Miss Lizzie Allen, daughter of Bannister Allen of Abbeville county. To this union four children were born as follows: Wade A. Watson, Earle Watson, Miss Anna Watson and Fritz Watson. His second wife was Miss Mattie Britt, also from Abbeville county and the daughter of Joseph Britt. To this union there was one child born, David J. Watson, a member of the graduating class at Clemson College this year.

Besides his widow and children there survives the following brothers: S. J. Watson of this county, F. B. Watson of Fair Play, and two sisters, Mrs. J. P. Duckett of this city and Mrs. Berry Allen of Anderson county.

In 1872 Mr. Watson joined Salem Baptist church of which he was a member and where his remains will be laid to rest. He was recognized as one of the most substantial members of the church and was always ready and willing to aid in anything that would mean its advancement. His death is a great loss to his family, his church, county and state.

PAVING FORCES TO GO TO McDUFFIE ST.

This Will be the Next Street Paved—Work Will Begin at Greenville Street.

It was stated yesterday that after the concrete base had been finished on West Market street, the machinery and forces of the Southern Paving company would be moved to North McDuffie street.

MEMBERS TOMATO CLUB TO MEET SEMI-MONTHLY

MEETING YESTERDAY MORNING TO FORM FUTURE DOMESTIC SCIENCE

Will be Taught by Club Demonstrator—Meeting Next Tuesday Afternoon at Miss Kinard's.

A meeting of the members of the tomato club girls in the city of Anderson was held yesterday morning at the office of Miss Jayne C. Garlington and plans were made by which the girls are to meet every two weeks for the purpose of receiving instructions in domestic science. Since the girls in the city only plant 25 tomato plants, and there is no demonstration to be given until later, Miss Garlington has planned to have the girls meet together twice a month. The meeting yesterday morning was for the purpose of deciding on the time and place for the first meeting.

It was decided to hold the meeting next Tuesday afternoon at 4:30 at the home of Miss Lavina Kinard at Anderson College, when instructions will be given in making green pepper and cheese sandwiches, stuffed tomatoes and cream dressing. The refreshments will consist of these when made.

Miss Garlington stated yesterday that she intended to give only simple lessons in domestic science, such as making salads, sandwiches, dressing.

NOW IS TIME TO PLANT THE WINTER GARDENS

WILL AFFORD EARLY FALL VEGETABLES AND WHEN NEEDED

SEVERAL CROPS

Can Now be Planted and Land Prepared for Later Crops—Instruction as to Cultivation.

The following article is very interesting to the lovers of good winter gardens.

Now is the time to plan your winter gardens. About the 15th or 20th of July you may carefully select your winter plant, lime it well, sub-soil about 12 inches. Lay off 1-3 of it in rows 2 1-3 feet apart, using plenty of leaf mold and well rotted compact as fertilizer. Plant Irish potatoes on this 1-3 of plot, using the small potatoes left from the spring crop if you have them. If no, plant the Lookout Mountain potato for autumn use. This crop can be left in the ground and used during the entire winter. There is always a ready sale for fresh Irish potatoes in fall and winter.

About the middle of August 1-6 of the plot may be planted in Rutabaga turnips, 1-6 in the egg turnip, which comes off very early, leaving the same territory to be planted in lettuce the first of November.

The remainder 1-3 of plot may be planted in the White Pearl onion which will be ready for market the first of February. If the sets are planted the first or middle of September. By planting them this early in the fall or middle of September. By planting them this early in the fall they bring a fancy price in the market, coming on so early in the succeeding year. Then too, the ground will be available in March for planting pimientos or some other product.

Onions require very frequent cultivation until the bulb is about two inches in diameter, then the soil should be drawn away from the bulb, leaving it exposed above ground, from which, through the thread roots, it develops very rapidly.

Winter gardens should be planted through July, August, and September. To increase variety of production on the plot the Irish potatoes may be gathered and spread in a house for keeping during the winter, leaving the space they occupy on the plot to be planted in beets the first of November. These yield an abundant harvest for February and March market. They, too, require frequent cultivation.

5,000 BUSHELS GRAIN IS USED

Carolina Grain & Elevator Company Has Handled This Number Since Operations Began.

It was stated yesterday at the grain elevator that about 5,000 bushels of wheat and oats had been handled since the elevator had been in operation.

The biggest day's business was one day last week when about 1,200 bushels were brought in. It was stated that business had not been so good because the farmers were so busy with their crops but as soon as they caught up with their work, probably more grain would be brought in.

When asked about prices being paid it was stated that wheat was being bought for \$1.60 a bushel and oats for 50 cents.

Emery Shirts at Reduced Prices

SINCE OUR ANNOUNCEMENT THURSDAY TO SELL

ALL \$1.50 EMERY SHIRTS AT \$1.15

ALL \$1.00 EMERY SHIRTS AT 85c

Parker & Bolt

"The One Price Clothiers"

AN ALFALFA CLUB IS ORGANIZED AT BELTON

MR. S. M. BYARS WAS THERE FOR THAT PURPOSE SATURDAY

18 MEMBERS JOIN

All Pledge to Plant One Acre in Alfalfa—Great Interest Was Shown at Meeting.

Mr. S. J. Byars, farm demonstrator of Anderson county, went to Belton yesterday afternoon and organized the first alfalfa club in this county with a membership of eighteen.

The purpose of the club is to forward the growing of alfalfa in this county and is the first of several that will be organized. Each member agrees to plant one acre. This acre is to be prepared well and tilled well, and although not stated yet, very likely there will be a prize for the one who raises the greatest amount on an acre.

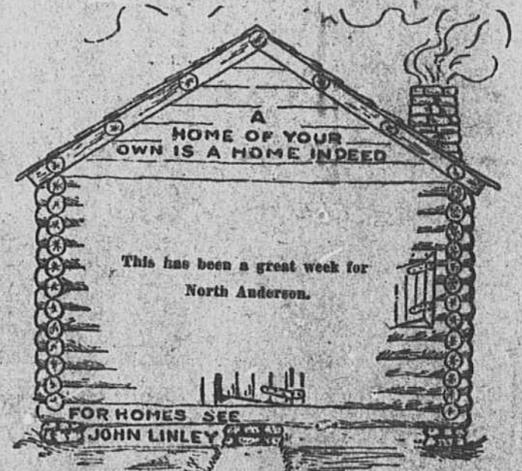

Mr. Byars stated that the meeting at Belton was a good one and he was impressed with the great interest and enthusiasm shown by the farmers of that section. He said that all seemed prepared for the club and were anxious for the organization. About 50 were present and the meeting was very interesting.

Those who joined the club are: Messrs. J. T. West, W. K. Bringer, W. H. Martin, J. M. Cox, J. G. Harria, J. R. Harris, A. R. Campbell, D. P. Jones, Jesse Drake, John Drake, J. P. Cox, J. A. Geer, T. C. Poore, J. G. Prinson, W. A. Shaw, John A. Horton, Will C. Clinckscale, J. C. Geer.

These men are representative citizens of that section of the county and all mean business. They realize that the south must raise more food stuff and they are anxious to be ahead doing their part and at the same time be doing something that will mean more money for themselves.

Mr. Byars will be at the giving the chautauqua, probably on July 20 and he stated last night that he would be glad to talk to the farmers of that section about this same subject while there.

The Explanation He Gives. "A wise man has 200 debts, but the fool is always positive." Says The Houston Post. And perhaps that's why so many wise men are riding around in their own automobiles. —Charleston News and Courier.

And We Should Add
 A great week for the young men and women who have bought lots under our Profit Sharing plan.

\$11,000.00
 Worth of lots have already been bought under the "Profit Sharing" plan we offered to the people of Anderson on July 1st.

Now Remember the Plan
 \$10.00 cash, \$10.00 a month, 20 per cent. of the companies net profits for 1st year—and 10 per cent. of the net profits for next two years. No taxes, interest 6 per cent. (Restricted to year ending July 1, 1916 and to first 75 lots sold).

Is It Any Wonder the People Are Buying?
